## INTO THE WORLD: HOW WALDORF GRADUATES FARE AFTER HIGH SCHOOL

WITH **DR. ILAN SAFIT**

Join Steiner Upper School Humanities Teacher, Dr. Ilan Safit as he discusses the research that captured the experiences of many Waldorf graduates.

[How do Waldorf students fare after graduation?](#) How many of them go to college? What subjects do they choose to major in at college? Do they feel that their Waldorf education prepared them well for post-secondary studies?

These are some of the questions that the Research Institute for Waldorf Education was set out to answer with its recent survey of Waldorf graduates in the book that Dr. Safit co-authored.
